

TÖREKY, Gábor

Phoenix Contact Ltd.

Product manager / electrical engineer, economist

gtoreky@phoenixcontact.com

I graduated as IT programmer (1999), Bsc electrical engineer (2004) and Msc economist (2014), the continuously self-developing is part of my daily life.

I have been dealing automation technology more than 15 years at several company (Wago Hungary Ltd, Johnson Controls International Ltd, FlexLink Systems Ltd), primarily in product sales and sales management, but I have experience in project sales, project management and system implementation as well, especially PLC programming. Several times I was consultant and reviewer of thesis.

I joined to Phoenix Contact Ltd at last year, responsible for product managing of Industrial Management and Automation business unit, which deals with automation products, new business fields and turnkey solutions as well.
