

ENGEL, Bastian
Endress+Hauser Process Solutions AG

bastian.engel@solutions.endress.com

Bastian Engel is currently the leader of the market intelligence team at Endress+Hauser Process Solutions AG in Switzerland responsible for integration technologies. He started his career in the chemical and pharmaceutical industry. After some years in plant optimization and maintenance, a stay abroad and further studies, he joined Endress+Hauser Germany. He worked there in the strategic product management. In parallel he studied Informatics with focus on information and communication management. Bastian Engel participates in the FDT group as an Executive Committee Member. He is driven to optimize the chain from the field instrument level up to the cloud.
