Finding Value in Digital Transformation

How do you turn digital transformation opportunities into business value? Discover how AVEVA listens to your needs and puts them at the centre of your digital transformation strategy.

David Blazek graduated from the Faculty of Applied Sciences as a software engineer and specialist in computer graphics and computer visualizations. Between 1992 and 2005, David worked as a consultant, senior project manager, department manager and deputy sales director. From 2005 he lived in the U.K., where he completed prestigious MBA program at Business School at the University of Birmingham (“Best MBA program in U.K. in 2005” according to The Economist). Graduated in 2007, awarded the MBA in International Business degree with distinction. Territory Sales Executive of division of Engineering and Natural Resources in Autodesk (2007 – 2014). Regional CEE Director in AVEVA (2014 – 2017). Channels & Partnerships Director EMEA in AVEVA from 2019. David Blazek helps Owners&Operators and engineering companies to streamline the processes of business areas that are critical to both short-term project performance and longer-term asset performance and safety. He has a track record for integrated approach to Project Management, Commissioning & Handover, Operational Readiness, Operation & Maintenance, In-Plant Engineering and HSE & Regulatory Compliance. He has been known for significantly increasing the business performance of O&Os, while reducing the risk of safety issues. Lives in the Czech Republic, married, two children.
